

NEWS RELEASE

Streaming Media Magazine Selects Osprey by Variosystems as One of the Top 100 Companies in Streaming

According to Roger Bieri, General Manager, "Osprey by Variosystems is proud to accept this recognition and live up to the challenge it represents. We will continue the Osprey video tradition of innovation by developing and delivering professional-quality capture cards that are seamlessly compatible with the industry's leading production, encoding, streaming applications. In fact, we have 5 new products launching in early 2015."

Osprey video capture cards are used in mission-critical applications throughout the world and are known for legendary quality and performance. Used in a wide variety of applications, from aerospace to surveillance, Internet TV to webcasting, Osprey cards drive the delivery of video to viewers all around the globe. More than 400,000 cards are used in a variety of broadcast, commercial and industrial applications.
