

12G/3G-SDI Features:

- 12G Inputs up to DCI 2160P60
- 3G Inputs up to 1080P60
- Video Outputs on 945, 1215, 1225, 1245, 1285
- 16 Audio Channels per Input
- Simulstream
- Medialooks SDK Support
- Independent Scaling and Frame Rate Conversion for each Input

HDMI 2.0 / 1.4 Features:

- HDMI2.0 Inputs up to 4k60
- HDMI1.4 Inputs up to 4K30
- 8 Audio Channels per Input
- Simulstream
- Medialooks SDK Support
- Independent Scaling and Frame Rate Conversion for each Input

Notes:

* M25 supports on 3G-SDI and one HD-SDI Input simultaneous
 All PCIe Capture cards are based on x4 or x8 Gen2 technology
 The 1245 and 1285 are limited to a combined 32G input bandwidth between all input Channels.
 Embedded Audio Channels are Mono Channels. For example all SDI Capture Cards support 16 Audio Channels per input hence 8 Stereo Channels

Osprey Rugged

915, 916, 925, 927, 935, 914, 924 are also available in a RUGGED Version featuring:

- Passive Cooling
- Extended Temperature Range of 0°C to 60°C
- Coating for high humidity / outdoor applications
- Extended 3yr Warranty

Simulstream: Simulstream lets you extract multiple streams with independent resolutions and frame rates from a single input. Simulstream is a standard feature on all Osprey Digital Video Capture Cards and is also available for our Analog Capture Cards
