

16 Channel 3G-SDI Multi Viewer & Switcher

MVS-16

Features:

MVS-16 is a 16x16 Matrix Switcher with Multi Viewer combination. While it features all the functionality of a true Matrix Switcher, Video and Audio of each Channel can be monitored in a wide variety of Multi View Layouts. The Multi Viewer features Dual 3G-SDI Outputs as well as parallel HDMI. All Inputs and Outputs are full size BNC and HDMI Type A connections. The unit features an integrated status display, multiple control options and lockout functionality.

- **SDI Input Formats** 1080p 60/59.94/50/30/29.97/25/24/23.98
1080psf 30/29.97/25/24/23.98
1080i 60/59.94/50
